

Research Position at the laboratory of Lipids, Lipoproteins and Atherosclerosis at IRCCS MultiMedica Milan

IRCCS MultiMedica is a research hospital (IRCCS) based in Milan, the second-largest city in Italy, with a lively economic and social life, and is extremely well-connected with most major cities in Italy and Europe. MultiMedica is one of the only 3 IRCCSs on cardiovascular disease in Italy, has a solid clinical activity, large laboratory facilities, and it is affiliated with Academic Institutions.

MultiMedica is interested in expanding its research activities of basic and translational investigation in the field of Lipids, Lipoproteins and Atherosclerosis by recruiting young investigators with keen interest in these fields.

A research position is available in these fields, under the supervision and coordination of Prof. Alberico L. Catapano Full Professor University of Milano and head of the laboratory on Lipids, Lipoproteins and Atherosclerosis at MultiMedica His group is very active both in basic and in translational clinical research, prof. Catapano is among the highly cited scientists a recognition for the top 1% scientists in their fields.

The prospective candidates should have the following characteristics:

- Age: <35 years old;
- Degree: any academic degrees in biomedical sciences, Post-doctoral degree would be a plus;
- English language proficiency;
- Specific expertise in experimental models dyslipidaemia and/or atherosclerosis, as documented by publications in these areas and/or letters of recommendation from previous supervisors;
- Previous experience in qualified International Institutions will be a plus;
- Commitment to effective team work with junior colleagues and senior supervisors.

Job place: MultiMedica Technological and Research Pole, Via G. Fantoli 16/15, Milan, Italy. Collaboration with clinical investigators of MultiMedica Hospital to carry out specific translational research will be encouraged.

Period: 1 year (with the possibility of extension).

Contract and salary to be negotiated, based on recruitee's expertise.

To apply, send CV, a brief description of personal interests and professional aims, and at least two letters of recommendation to: alberico.catapano@multimedica.it and alberico.catapano@unimi.it
